

NOOR ZAYAN

Noor Zayan is an oasis of calm and serenity in the green, rural outskirts of Marrakech. Surrounded by palms and olive trees, this spacious home with its streamlined architecture is the perfect refuge, with a view of the majestic Atlas Mountains. Architect Héléna Marczewsky created a flowing transition between the light-filled volumes and the surrounding areas with patios and large windows. This resulted in transparent views across the property. The furnishings are zen and sophisticated, with a subtle mix of contemporary furniture with eastern touches and ethnic objects. There are large terraces throughout, which invite you to take a breakfast with a panoramic view or an intimate dinner beneath the starry skies.

The pool house with underground spa (hammam, massage room, bathroom). Loungers by Dedon, antique Malinese chairs found in the souks of Bab Fteuh.

The hammam, with light filtered by wrought-iron moucharabias. Finish in tadelakt and Taza natural stone.

⌘
In the evening, the swimming pool is illuminated by dozens of lights; a real One Thousand and One Nights atmosphere.

SERENITY AND MINIMALISM

Serenity and minimalism in this swimming pool room designed by 'Aksent.
Gong daybed by Promemoria.

A TIMELESS GARDEN IN AN EXCEPTIONAL SETTING

Jan Joris (Landscape Gardening) was asked to integrate the unspoiled scenery and the various buildings into a single whole with numerous vistas and different atmospheres. The contrasts of light/shadow, open/closed, rigid/loose and high/low, respect for the existing nature and the four seasons are recurring themes in all the designs worked out by Jan Joris Tuinarchitectuur. The close collaboration between the owner, villa contractor Frank Missotten and the team of Jan Joris resulted in this project.

THE ART OF LIVING ON THE CÔTE D'AZUR

Commissioned by a property developer, RR interior Concepts took this newly built villa in Saint-Tropez completely in hand. In this project Christel De Vos concentrated entirely on the complete furnishing and finishing. Both for outside and inside the furniture selected came from Flexform,

B&B Italia, Minotti, Maxalto,... The object was to create a pleasant environment where the surroundings and the finished interior form a single united whole. Fresh colours, in combination with a black contrast, show a controlled vision. This is an example of the art of living outside the Belgian frontiers; a challenge from which RR Interior Concepts certainly did not shrink.

A SUBTLE HOLIDAY FEELING

In this report, landscape and garden architect Dominique Eeman demonstrates his creativity and virtuosity. For both holiday homes, he has succeeded in creating a subtle holiday feeling using a balanced mix of evergreen shrubs, grasses, weathered and natural materials (natural stone, wood), with a swimming pool and a swimming pond that are perfectly integrated into the surroundings.
